www.nppa-accredit.org

The **Accreditation Commission for Education in Nursing (ACEN)** and **Accreditation Review Commission on Education for the Physician Assistant (ARC-PA)** have partnered to offer Nurse Practitioner and Physician Assistant (NP&PA) Residency Program Accreditation. This collaboration has been intentional and thorough to ensure the highest standard of quality and excellence in clinical specialty training for APPs.

The NP&PA accreditation process focuses on self-evaluation and peer-review to support programs in their efforts to enhance and maintain quality and rigor in their residency programs. NP&PA accreditation demonstrates to the public that a program has met quality standards established to prepare trainees for advanced practice in a clinical setting.

www.conferMED.com

ConferMED is a not-for-profit national network of specialists supporting primary care practices nationwide. ConferMED specialists provide eConsults for over 70 medical and surgical specialties and subspecialties for both adult and pediatric patients and are also available to provide didactic lectures, live case discussions, and skill building sessions for APP Postgraduate and other training programs. ConferMED has nearly 300 dedicated specialists available to support primary care providers and trainees. All ConferMED specialists are board certified and experienced in their fields. They are carefully selected and monitored to ensure they provide the highest quality education and consultation to our users. Finding reliable sources of specialty expertise for trainees is a large and growing challenge. ConferMED's specialists are passionate about teaching and are available today to enhance your postgraduate training program!

www.crossroadsgroup.com

The mission of **The Crossroads Group** is simply to help organizations hear and respond to the voice of the customer/stakeholder and report findings in a manner which facilitates effective follow-up action at all levels (from senior leadership to front-line staff).

Initially specializing in healthcare (and now serving almost any industry), The Crossroads Group has designed and implemented hundreds of client and employee survey projects over fifteen years. We currently administer over a hundred **ongoing** survey projects across the country and enjoy a client-retention rate of over 90% for patient and employee survey projects. This loyalty can only result from personalized service (we listen to our clients), a quality survey product at all levels (from questionnaire design to reporting), combined with a great value in terms of cost. We also adapt to the ever-changing needs of our clients.

The Crossroads Group also is experienced in providing services for pharmacies, specialty care centers (e.g. Nephrology), Emergency Rooms, and hospitals. The Crossroads Group also is experienced working with health plans and health plan surveys and has provided services in other industries such as education, residency programs, and banking, and has implemented several custom surveys to assess special programs or grant-funded projects.

www.fhea.com
